Here at Sweet Angels we offer before and after school care, holidays and vacations too. We also have a great summer camp program.

Sweet Angels provides care for children between the ages of 5 and 12 years because we recognize how important it is to know that your child is being well cared for in a safe environment while they are not at school.

In the summer, school may be out, but you still want your child to be in a safe learning environment. That is why Sweet Angels provides a summer camp for its school age students. Our well-trained and caring staff builds a curriculum that is not just fun and engaging, but also helps students to retain all of the knowledge they gained the previous school year. The program balances summer fun, such as ample outdoor play time and art exploration time, with educational activities, such as science experiments and silent reading time. The program allows you to feel comfortable about who is watching your child while school is not in session and your child to feel like their having a blast!

\* We provide all the meals, including breakfast, lunch and snacks and go on several field trips throughout the summer at no additional cost to you. (See Attached Program)

\* Each week there is a different theme that the kids will have fun celebrating. (See Attached Program)
